Dear Sir,

I am a soldier serving my National service out here in Germany. I have been keen on space stories since I was about nine years, even up to now and I often look at the sky at night as it fascinates me very much, so tonight the 11th APRIL 1959 I was going to post a letter when I happened to glance at the stars with intention of seeing an object in outer space, as I had just finished reading a book called :-

FLYING SAUCERS HAVE LANDED by Desmond Leslie & George Adamski, I was quite surprised to see an object in the sky, it was very bright also it's spray it was giving off, it was oval shape with a long silvery vapour trail, to my sight it was about an $\frac{1}{2}$ " to 1" before going out of sight, it remained as I stated in sight for 3 to 4 sec but the vapour remained for as stated 2 $\frac{1}{2}$ MINS.

I don't know exactly what it was, it
may of been a trick of my eyes after
watching these Saucer sighting hoaxes
but I am am 100% sure it was no trick
of my eyes. please if you can let me
know if others had seen it at the same
time as I did, to see if I was right.
well this is all I can tell you
and this is no joke I promise you
yours sincerely
